30th INTERNATIONAL SEMINAR

SAVE THE DATE

"Innovation and Sustainability"
In memory of Juan José Lulle

Tuesday 23rd - Wednesday 24th November 2021

East Wintergarden, 43 Bank Street, Canary Wharf, London, E14 5NX

We are happy to announce that the 30th ISO International Seminar will be held in person on Tuesday, November 23 and Wednesday November 24, 2021, with the title "Innovation and Sustainability", dedicated to the memory of our dear friend Juan José Lulle. Please see below the draft programme where you will note that we have identified relevant issues to be addressed by top level, internationally recognized speakers.

This is a unique opportunity to bring together the "world sugar family" after so many months of isolation and engage key stakeholders of our sector around issues of common interest, so that we can better prepare to tackle successfully the challenges ahead. It is imperative that we join efforts and "sing off the same hymn sheet" so that we can further the goals we all believe in and contribute towards solving global problems such as Climate Change and Self-Sustained Growth.

Innovation and Sustainability are at the core of our DNA and we must bring out our best to face these daunting objectives in a cohesive, unified manner, always emphasizing best practices and keen on the stewardship of the land and water we have been entrusted with.

The conditions are right, the situation is improving day-by-day and we are focusing on every single detail with millimetric focus as our main priority is the safety and well-being of you, our friends and contacts who will participate in this special event. We are confident the travel regulations will be more and more flexible, and that the overwhelming majority of our ISO Members & colleagues will be able to come and join us.

Registration will open very soon and we pray that you will be able to take part in this singular gathering, putting an end to being apart and once again coming together to work hard on achieving tangible results.

30th ISO SEMINAR

Given it is our 30th anniversary, Executive Director, José Orive, will chair the 2021 seminar and will be accompanied by several renowned personalities of the business world to enrich the dialogue around issues of key importance for the future of Sugar. It is imperative that our sector embrace Innovation and contribute to Sustainable Development, fostering best practices, perfecting traceability, looking beyond existing frontiers to emerge as a global player. 'Thinking outside the box' is part of the 'new normal' and our agroindustry must lead in anticipating change, protecting the environment and preserving the resources we have been entrusted with.
