EXECUTIVE DIRECTOR

**Press Release(17)16
(English only)**

24 April 2017

Article from Food Navigator.com

**“Artificial sweeteners raise stroke and dementia risk,
study claims”**

The Secretariat would like to draw the attention of Members and colleagues to the article below on the effects of artificial sweeteners. Given the situation in many countries worldwide, this information is useful to address issues of relevance.

[Artificial sweeteners raise stroke and dementia risk, study claims](#)

For more information on this topic please see the link below to read an abstract on a recent ISO study on “Sugar and Health” (MECAS(16)05), which is available to purchase from the Secretariat.
