The climate crisis is already hitting food production: An urgent system-wide response is needed

06-Jun-2019 By Katy Askew

Feeding a future global population of 10 billion people without causing a climate catastrophe this century will require transformational change across the entire value chain. Fresh evidence suggests climate change is already impacting crop yields. What are the key challenges and opportunities?

Gat Foods brings fruit-based sweetener Fruitlift to US targeting 'no added sugar' potential in RTE cereals

07-Jun-2019 By Kacey Culliney

Israeli firm Gat Foods has developed a fruit-based sweetener that can replace refined sugar in puffed ready-to-eat breakfast cereals, an ingredient it claims could liven up a declining market.
